Manage Your Career by Phone! Chicagoland Coaching Firm Enerpace, Inc. Launches Career Group Coaching Program For Busy Professionals

Career Transition Tools, Networking Tips, Job Search and Interviewing Skills are all included in Enerpace's New Career Group Coaching Programs

Elmhurst, IL, USA, February 18, 2008

Enerpace, Inc. has created a telephone group career coaching program especially designed to accommodate the needs of busy professionals. Starting Monday, March 10th, the 10 lunchtime sessions meet from 11:30 a.m. - 1 p.m. C.S.T and cover the essentials of any job search: career choice/ career fulfillment; job search strategies; keys to effective networking; interviewing skills, etc. The program investment is \$499, and provides a 30 day money back guarantee. If a participant wishes to withdraw from the program after the first month, all unused fees will be refunded. Additional information may be found at www.enerpace.com. To register, call Enerpace at # (630) 832-4399 or email mail@enerpace.com

Elene Cafasso, President of Enerpace says: "We developed this program in response to all the professionals who've told us that they need help with the various nuances of a career change. Some don't have time to devote to the process. Some really don't even know where to begin – it can be very overwhelming. Some are returning to work after being home with children. Others are so busy in their current job that they can't focus on what they want in a new one, let alone actively engage in a search. This program addresses all those needs by totally expediting the process. Co-facilitation by two executive coaches allows us to walk the group step-by-step through the phases of a successful career transition. The group members will learn from each others' experiences, as well as the best practices and tools shared by the facilitators. "

Diana Atkins, co-facilitator of the program adds: "We spoke with one prospective participant who sees this as a great option when someone knows they need support, but is not ready to commit to the greater time and financial commitment required by private coaching. This group coaching program is conveniently scheduled for busy people and is very economical too!"
